Reveal the SOtM's first LAN card & Demo the dual serial-connected sNH-10G !

The sNI-1G is the SOtM's first audio grade Ethernet port card, it would be shown for the first time officially at the show site, please check the simple spec of the sNH-1G.

- Support M.2 interface(it can be connected with mPCIe and PICE slot)
- Support 10BaseT,100BaseT,1000BaseT
- Support Wake on LAN
- Internal SATA power and external power input
- Ultra low noise regulator
- Ultra low jitter clock
- The audio grade clock module, sCLK-EX, ready

Since after released the sNH-10G at HighEnd2018, the sNH-10G have become to the necessity for all network audio system. In HighEnd2019, we will demo how dual serial-connected sNH-10G perform with SOtM equipment and Danish Audio Design Speaker at Hall2, G05.

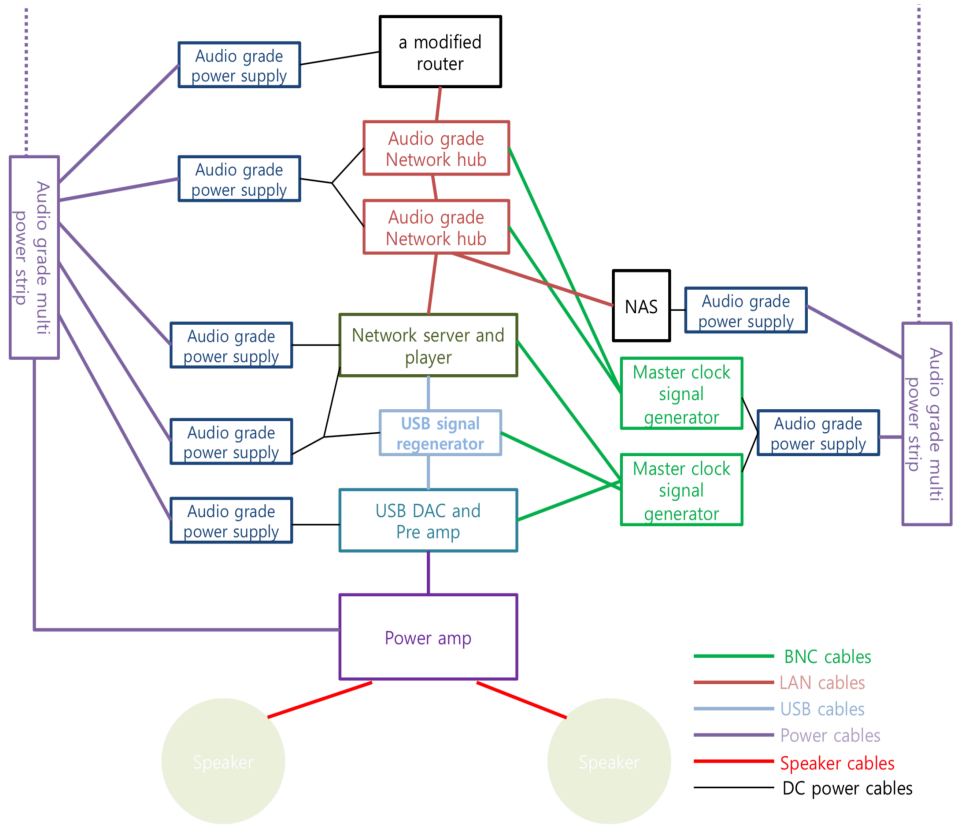

In this year, SOtM at HighEnd2019 would have more time to talk and discuss about the future products and about the digital audio world, please visit us for further fun and joy.

SOtM's all products including the forthcoming products certainly tell what the real value of audio products should be.

SOtM will become the most important partner in your music life.
